

I.O.N

No: DRDO/RCI/DCE_CSL/01

SUB:-Issue of Experience Certificate

ANKIT RAJ, Electronics and Communication Engineer working in this organization and it request to issue experience certificate for this period date 14.05.2025 to till date .

Designation :- Project Engineer

I have contributed and involved in the following area:-

- Executed block-level verification of a complex control system comprising RTL modules such as PWM generator, Averaging filter, Commutation logic, Position, Velocity and Current control loops, ADC, DAC, ACE Controller, and Configuration blocks.
- Architected and developed a scalable UVM testbench with sequence items, sequences, driver, monitor, agent, and scoreboard, enabling modular and reusable verification.
- Designed and implemented constrained-random stimulus, integrated with System Verilog Assertions (SVA) and functional
- Achieved functional and code coverage closure (line, toggle, FSM) by analyzing coverage reports and systematically improving stimulus to target uncovered scenarios.
